Q1	<p>The article 21. Selection criteria allow the economic operators, to rely on capacities of other entities, regardless of the legal nature of the links which it has with them.</p> <p>In view of the above paragraph, will the references/proofs of projects executed by capacity provider be accepted for evaluation of the technical capacity of the candidate? Is there restriction of the number of references that may be submitted by a capacity provider vis a vis references provided by a candidate?</p>
A1	<p>The references of projects executed by capacity providers will be accepted for evaluation. The subject of evaluation will be the entire application. Therefore, the number of references to be provided must not exceed 15 for application as a whole, whether participating in a Consortium or as an individual candidate, including any potential capacity providers.</p>
